

Get listed in Onward Pro

EQuelora Companion is an app for horse and rider. In its Onward Pro section, riders find professionals near them: vets, farriers, physiotherapists, instructors and more. Use this form to apply. For now, Onward Pro covers the Netherlands.

TWO WAYS TO BE LISTED

Part A — Basic listing (free). Your name, profession, province and website. Riders contact you through your own website. Fill in part A only.

Parts A + B — Extended listing (with an agreement). In addition, your own profile behind More information, and riders can send you a contact request through the app. For the first participants the first six months are free of charge. The terms and the agreement are at www.equelora.com/professionals (in Dutch; the Dutch text is binding).

GOOD TO KNOW

- EQuelora does not select or vet the professionals in the directory. Riders choose; they make arrangements with you.
- We show a registration or membership as a fact, with a link to the register, so the rider can check it. We never call anyone 'verified' or 'recommended'.
- Fields you leave empty are not displayed.
- Your email address, phone number and billing details are not displayed. We only use them for your listing and, with an agreement, for contact requests and invoices.
- Changing, removing or extending always goes through this form. If you are already listed, we send it to you with your current details filled in; you change what needs to be different.

HOW TO SEND THE FORM BACK

Fill in the form on your computer or phone, save it, and email it to info@equelora.com from the email address shown on your own website. We will then process your application. If the form comes from a different address, we first ask the address on your website whether the application is yours. You can attach a photo or logo.
